

# Potential Return to Campus Survey

June 1-5, 2020

## INTRODUCTION

As Santa Fe College (SF) plans its response to the continued pandemic with a hope of returning to campus in some capacity as soon and as safely as possible, your input will help make the right decisions. No decisions about the timing of a return have been made, so please keep in mind as you go through the survey that any situations discussed are hypothetical at this point.

This survey should take about 3 minutes of your time, and you are free to stop at any point. Your answers may be combined with other student information, but responses are confidential, and results will only be reported in aggregate and not connected to any individual.
